DELEGACIÓN DEL GOBIERNO PARA LA VIOLENCIA DE GÉNERO

9TH ANNUAL REPORT BY THE NATIONAL OBSERVATORY ON VIOLENCE AGAINST WOMEN

EXECUTIVE REPORT

9TH ANNUAL REPORT BY THE NATIONAL OBSERVATORY ON VIOLENCE AGAINST WOMEN

EXECUTIVE REPORT

Article 30(2) of Organic Law 1/2004 of 28 December 2004 on measures to provide comprehensive protection against gender-based violence (hereafter referred to as the Comprehensive Protection Law) establishes that the National Observatory on Violence against Women shall produce an annual report on violence against women in accordance with the terms of Article 1(1) of the Comprehensive Protection Law.

This 9th Annual Report was approved by plenary meeting of the Observatory on 31 May 2017.

Reports approved and published

The eight preceding annual reports published by the National Observatory on Violence against Women, approved in 2007 (1st Report), 2008 (2nd Report), 2009 (3rd Report), 2010 (4th Report), 2011 (5th Report), 2012 (6th Report), 2013 (7th Report) and 2014 (8th Report) draw on information about gender-based violence referring, on the one hand, to the period before implementation of the Comprehensive Protection Law and up to 2007 (1st Report) and, on the other, to statistical data available up to the end of 2008 (2nd Report), 2009 (3rd Report), 2010 (4th Report), 2011 (5th Report), 2012 (6th Report), 2013 (7th Report) and 2014 (8th Report), respectively.

The system of gender-based-violence indicators and variables was included as an annex to the 1st Report by the Observatory. The 2nd Annual Report by the Observatory also included the findings of research into life experience of women disabled by gender-based violence, which had been commissioned by the Government Office for Gender-based Violence. The 3rd Annual Report included a report by the research group into parental alienation syndrome, the result of the work done by a group established within the Observatory. The 4th Annual Report included a report by a research group created to investigate the extent to which infants exposed to gender-based violence (either as witnesses or victims) are susceptible to becoming direct victims in later life. The 7th Annual Report introduced the conclusions of the working group assessing application of legislation on gender-based violence and, finally, the 8th Annual Report included the conclusions of the working group analysing the response to gender-based violence within the justice system. All these working groups were created within the National Observatory on Violence against Women.

As regards the statistical data, the number of indicators and statistical variables deriving from them has increased from one report to the next, as has data disaggregation.

The 1st, 2nd, 3rd, 4th, 5th, 6th, 7th and 8th Annual Reports have been published in the collection entitled *Against Gender-based Violence*. *Documents* in both physical and digital format. The full reports have also been published in digital format in English, and the respective executive reports have been published in digital format in Spanish, French and English. All of the reports are available for download from the Social Services and Equality section of the Ministry of Health, Social Services and Equality website.

9th Annual Report (2015): structure and contents

The 9th Annual Report by the Observatory, produced by the Subdirectorate-General for Awareness, Prevention and Knowledge of Gender-based Violence and approved on 31 May 2017, is divided into 14 chapters and an annex containing a summary of the data on each autonomous community and province.

Statistical Annual Report on Gender-based Violence

As part of the Observatory's 9th Annual Report, the **Statistical Annual Report** presents the data collected on gender-based violence in 2015. In addition, it compiles these with the data collected in previous years to allow for analysis and interpretation of the entire period and so provide a better and more comprehensive understanding of the reality as regards gender-based violence in Spain. It also provides information on victim and aggressor behaviour, on the number of formal complaints of gender-based violence filed, on the resources made available to victims of gender-based violence, and on changes in social perception of gender-based violence, among other aspects.

The Statistical Annual Report annexed to the Observatory's 9th Report comprises 14 chapters (described briefly below) containing analyses drawn fundamentally from the overall data collected on gender-based violence in Spain in 2015.

1. Fatal victims of gender-based violence

1 January 2003 to 31 December 2015

Source: Government Office for Gender-based Violence (Secretariat of State for Social Services and Equality. Ministry of Health, Social Services and Equality).

Number of fatal victims: In 2015, there were 60 fatal victims, bringing the total number of fatal victims between 2003 and 2015 to 826.

In 2015, 55% of the women murdered in Spain were killed by their partners or ex-partners, a figure very similar to the average for 2003–2015 (55.4%).

Figure 1.1. Number of fatal victims of gender-based violence
1 January 2003 to 31 December 2015

Source: Ministry of Health, Social Services and Equality. Government Office for Gender-based violence

Formal complaints filed by fatal victims: Of the 60 fatal victims in 2015, only 21.7% (13 women) had filed a formal complaint against their aggressors. Similarly, only 8 fatal victims had requested protective measures, which had been granted to all of them.

With regard to judicial action brought by the courts prior to the victims' death, it is noteworthy that of the 626 fatal victims under institutional protection recorded between 1 January 2006 and 31 December 2015 (the only period for which this information is available), formal complaints of abuse were only filed in 163 cases (26.1%).

It remains as essential as ever to improve data collection, making it systematic and exhaustive, in order to learn the reasons why prior formal complaints were only filed in 26.1% of cases; why some women withdrew the formal complaint; why in some cases there was no follow-up to the formal complaint; and why protective measures granted to some women who filed formal complaints and applied for protection were no longer in effect at the time of their death. Equally, it is essential to know how death could have been avoided in those cases in which protective measures were in place.

The persistence of gender-based murder and the variability in its incidence over the period bring into relief the fact that gender-based violence, in its most brutal manifestation, affects the entire country and is a haphazard phenomenon. Equally, it is worth recalling that each murder substantially alters the figures and their distribution.

2. Formal complaints of gender-based violence

1 January 2007 to 31 December 2015 Source: General Council of the Judiciary

In 2015, Spain's courts received a total of 129,193 formal complaints of gender-based violence, equivalent to 10,766 per month and 354 per day. This represents a year-on-year increase of 1.9% in the number of formal complaints of gender-based violence.

Total formal complaints: 1,181,370 TOTAL FORMAL COMPLAINTS RECEIVED Daily mean number of formal complaints 160,000 800 142,125 140,000 135.540 134,105 134,002 700 129,193 128.477 126.742 126,293 124,893 120,000 100,000 500 80,000 400 000,00 300 40,000 200 20,000 100 0 0 2007 2010 2011 2012 2015 2008 2009 2013 2014

Figure 2.1. Number of formal complaints of gender-based violence
1 January 2007 to 31 December 2015

Source: Compiled in-house from data provided by the General Council of the Judiciary.

Analysis by source of the 1,181,370 formal complaints filed between 2007 and 2015 shows that 852,417 were filed directly with the police or courts by victims of gender-based violence; 160,558 originated from police reports as a result of direct police intervention; 134,611 originated from injury reports; 18,182 were filed by relatives of the victim; and 15,602 were filed by social/support services and third parties in general.

3. Female victims of gender-based violence receiving police assistance

1 January 2010 to 31 December 2015

Source: Secretariat of State for Security, Ministry of the Interior.

Since 2010, there has been a progressive decrease in the number of women considered by the police as active cases of gender-based violence as at 31 December.

Figure 3.1. Number of female victims of gender-based violence receiving police assistance, by risk level

Source: Compiled in-house from data provided by the Ministry of the Interior.

As at 31 December 2015, 52,005 women classified as female victims of gender-based violence were receiving assistance from the security forces. According to the most recent assessment in each case, 16,613 women were considered to be at risk and were receiving police protection. In 35,392 cases, the most recent police assessment identified no appreciable risk.

For every million females aged 14 and over resident in Spain, 1,020.5 were victims at risk of suffering further gender-based violence and, consequently, had been provided with police protection.

Figure 3.2. Number of women assessed by police, by risk level 31 December 2015

Source: Compiled in-house from data provided by the Ministry of the Interior.

It should be noted that the statistical analysis excludes cases reported in Cataluña and País Vasco as that information does not include the data compiled by their respective regional police forces.

4. Judicial data on gender-based violence

31 December 2015

Source: Ministry of Justice.

In 2015, the number of specialised courts authorised to deal with cases of violence against women remained the same:

Special courts: As at 31 December 2015, Spain had 461 courts authorised to deal with cases of violence against women. Of that number, 106 were specialised courts dealing exclusively with violence against women and 355 were non-exclusive courts authorised to try such cases.

Criminal courts and criminal courtrooms in provincial courts: Likewise, as at 31 December 2015, Spain had 23 specialised criminal courts and 72 courtrooms in provincial courts exclusively hearing cases of violence against women in accordance with the terms of Article 1 of the Comprehensive Protection Law.

Legal aid: In 2015, and within the territory administered by the Ministry of Justice, a total of 5,226 women received counsel under the legal aid system.

Comprehensive Forensic Assessment Units: In 2015, within the territory administered by the Ministry of Justice, and like the previous year, a total of 24 psychologist–social worker teams were in operation staffed by psychologists, social workers and forensic physicians assigned to cases of gender-based violence.

Victim Support Offices: One of Victim Support Offices' primary functions is to assist victims of gender-based violence. Following an established action protocol, they assess and treat those victims at greatest risk. In 2015, a total of 6,569 women were enrolled on the victim assistance programme and 27,960 female victims of gender-based violence were counselled by psychologists.

5. Calls received by the 016 helpline providing information and legal advice on gender-based violence

3 September 2007 to 31 December 2015

Source: Government Office for Gender-based Violence (Secretariat of State for Social Services and Equality. Ministry of Health, Social Services and Equality).

In 2015, the 016 helpline providing information and legal advice on gender-based violence received a total of 81,992 calls relating to gender-based violence. This figure was 19.4% higher than the number received in 2014 (68,651).

From 2012 onwards, there was an upward trend in the number of calls received, with 2015 registering the highest figure (81,992).

Between 3 September 2007 and 31 December 2015, the helpline received 562,309 calls relating to gender-based violence.

Figure 5.1. Calls received by the 016 helpline, by year 1 September 2007 to 31 December 2015

Source: Ministry of Health, Social Services and Equality. Government Office for Gender-based Violence.

Analysis of the calls received by caller type over the period under review reveals that 73.6% of calls were made by female users. Relatives and friends accounted for 23.8% and professional support staff accounted for 2.6%.

Table 5.1. Changes in numbers of calls received by the 016 helpline and percentage breakdown by caller

6. Helpline for children and adolescents at risk

1 January to 31 December 2015. Source: ANAR Foundation.

From January 2010 onwards, information is available on calls made to the Child and Adolescent Helpline for minors at risk, and to the Adult and Family Helpline for adults seeking guidance on how best to help minors within their immediate circle. The service provides psychological, social and legal guidance and support.

In 2015, the services received 2,679 calls relating to gender-based violence: Of those:

- 453 calls referred to situations in which a female minor was the direct victim of genderbased violence; and
- 2,226 calls referred to situations of gender-based violence in which a minor formed part of a female victim's family circle.

Figure 6.1. Percentage breakdown of calls received by the ANAR helpline, by type of violence 2015

Source: Compiled in-house from data provided by the Child and Adolescent Helpline.

The average age of the female minors directly affected by gender-based violence was 15.8, while the average age of the minors of both sexes experiencing gender-based violence in the home was 9.7.

As regards the aggressors identified in calls referring to minors of either sex experiencing gender-based violence in the home, 89.7% of aggressors were the minor's father, while 9.4% were the partner or ex-partner of the minor's mother.

7. Female users of the ATENPRO assistance and protection helpline for victims of gender-based violence

31 December 2005 to 31 December 2015

Source: IMSERSO and Government Office for Gender-based Violence (Secretariat of State for Social Services and Equality. Ministry of Health, Social Services and Equality).

Between going into operation and the end of 2015, the service was used by a total of 67,351 women.

The number of female users registered with the service increased steadily between 2005 and 2009. However, in 2010, following rationalisation of the service, in which helplines that had not been used for months — along with others that it was not possible to contact — were taken out of operation, the number of registered users fell significantly.

As at 31 December 2015, the number of women using the assistance and protection helpline for victims of gender-based violence stood at 10,887, up by 3.7% on the figure at the close of 2014 (10,502).

Figure 7.1. Changes in aggregate numbers of registrations with and final female users of the ATENPRO assistance and protection helpline for victims of gender-based violence

December 2005 to December 2015

Source: Ministry of Health, Social Services and Equality. Government Office for Gender-based Violence.

8. Subsidised employment contracts for female victims of violence (1 January 2003 to 31 December 2015) and substitution contracts for victims of gender-based violence (1 January 2005 to 31 December 2015)

Source: State Public Employment Service (Ministry of Employment and Social Security).

Between 1 January 2003 and 31 December 2015, a total of 5,874 subsidised employment contracts for female victims of violence were registered, 836 of them in 2015. Of that latter number, 169 were permanent contracts and 667 were temporary ones.

Between 1 January 2005 and 31 December 2015, a total of 1,868 substitution contracts for employed female victims of gender-based violence were registered, 171 of them in the last year of the period.

9. Female victims of violence receiving labour-market-integration benefit

1 January 2006 to 31 December 2015

Source: State Public Employment Service (Ministry of Employment and Social Security).

In 2015, a total of 34,695 employed female victims of violence received labour-market-integration benefit (RAI), 0.4% more than in 2014.

Table 9.1. Number of females aged 16 and over receiving the labour-market-integration benefit

1 January 2006 to 31 December 2015

| 2008 | 16,883 | 27.0% | 54.5% | 9,444.8 | 24.2% |
| 2009 | 22,010 | 30.4% | 101.5% | 13,461.3 | 42.5% |
| 2010 | 25,512 | 15.9% | 133.5% | 15,839.9 | 17.7% |
| 2011 | 29,065 | 13.9% | 166.1% | 17,819.7 | 12.5% |
| 2012 | 30,065 | 3.4% | 175.2% | 18,710.7 | 5.0% |
| 2013 | 32,596 | 8.4% | 198.4% | 21,230.3 | 13.5% |
| 2014 | 34,550 | 6.0% | 216.3% | 22,415.7 | 5.6% |
| 2015 | 34,695 | 0.4% | 217.6% | 21,763.1 | -2.9% |

Source: Compiled in-house from data provided by the State Public Employment Service.

As regards financial aid to change address, between January 2005 and December 2015 this was provided to a total of 22,876 female victims of gender-based violence.

10. Recipients of the financial aid established under Article 27 of the Comprehensive Protection Law

1 January 2006 to 31 December 2015

Source: Government Office for Gender-based Violence. (Secretariat of State for Social Services and Equality. Ministry of Health, Social Services and Equality).

At the end of 2015, the Government Office for Gender-based Violence held on record that, between 2006 and 2015, financial aid had been granted to 3,913 female victims of gender-based violence under Article 27 of the Comprehensive Protection Law. Of that number, 679 victims received that aid in 2015.

11. Temporary residence and work permits granted to female victims of gender-based violence on the grounds of exceptional circumstances

1 January 2005 to 31 December 2015

Source: Ministry of Public Administration and Finance

Between 1 January 2005 and 31 December 2010, temporary residence and work permits were granted to 2,519 foreign female victims of domestic and gender-based violence. Between 2011 and December 2015, a total of 6,477 women were granted these permits on the grounds of gender-based violence, with 1,214 of them being issued in 2015.

12. Gender-based violence offenders serving prison sentences

1 January 2009 to 31 December 2015

Source: Secretariat-General for Penitentiary Institutions (Ministry of the Interior).

As at 31 December 2015, a total of **5,915**¹ male gender-based violence offenders were serving prison sentences.

Figure 12.1. Gender-based violence offenders serving prison sentences, by year. Ratios per million males aged 18 and over 2009–2015

Source: Compiled in-house from data provided by the Secretariat-General for Penitentiary Institutions.

¹ The prisoner figure does not include offenders held in penitentiary centres in Cataluña.

13. Electronic monitoring of restraining orders on gender-based violence offenders

24 July 2009 to 31 December 2015

Source: Government Office for Gender-based Violence (Secretariat of State for Social Services and Equality. Ministry of Health, Social Services and Equality).

Since electronic monitoring of restraining orders on gender-based violence offenders began on 24 July 2009, and through to 31 December 2015, a total of 3,397 pairs of electronic devices were fitted. Of these, 2,600 had been removed by the end of 2014, leaving 797 active pairs of devices in operation as at 31 December 2015.

14. Statistics on domestic and gender-based violence

2015

Source: National Statistics Institute.

The statistics on domestic and gender-based violence offer information about victims and reported aggressors under protection orders and precautionary measures entered in the central register for the protection of victims of domestic and gender-based violence in the reference year. The register is maintained by the Ministry of Justice. The information provided does not include the total number of formal complaints filed. Rather, it includes solely those complaints that have been entered in the register as a consequence of the precautionary measures put in place. Similarly, it does not include information about aggressors in relation to whom a final ruling has been issued.

In 2015, a total of 27,624 female victims of gender-based violence were registered in cases in which precautionary measures or protection orders had been issued, an increase of 2% on the previous year.

By age group, almost half the victims of gender-based violence (62.1%) were aged between 25 and 44. Mean victim age stood at 36.
