8TH REPORT BY THE NATIONAL

OBSERVATORY ON

VIOLENCE AGAINST WOMEN

EXECUTIVE REPORT

8TH ANNUAL REPORT BY THE NATIONAL OBSERVATORY ON VIOLENCE AGAINST WOMEN

EXECUTIVE REPORT

Article 30.2 of Organic Law 1/2004 of 28 December 2004 on measures to provide comprehensive protection against gender-based violence (hereafter referred to as the Comprehensive Protection Law), establishes that the National Observatory on Violence against Women shall produce an annual report on violence against women in accordance with the terms of Article 1.1 of the Comprehensive Protection Law.

This 8th Annual Report was approved by plenary meeting of the Observatory on 3 June 2016.

Reports approved and published

The seven preceding annual reports published by the National Observatory on Violence against Women, approved in 2007 (1st Report), 2008 (2nd Report), 2009 (3rd Report), 2010 (4th Report), 2011 (5th Report), 2012 (6th Report) and 2013 (7th Report), draw on information about gender-based violence referring, on the one hand, to the period before implementation of the Comprehensive Protection Law and up to 2007 (1st Report) and, on the other, to statistical data available up to the end of 2008 (2nd Report), 2009 (3rd Report), 2010 (4th Report), 2011 (5th Report), 2012 (6th Report) and 2013 (7th Report), respectively.

The system of gender-based-violence indicators and variables was included as an annex to the 1st Report by the Observatory. The 2nd Annual Report by the Observatory also included the findings of research into life experience of women disabled by gender-based violence, which had been commissioned by the Government Office for Gender-based Violence. The 3rd Annual Report included a report by the research group on parental alienation syndrome. The 4th Annual Report included a report by a research group on infants exposed to gender-based violence (either as witnesses or victims) and, finally, the 7th Annual Report included the conclusions of the working group assessing the application of gender-based-violence legislation. All the working groups were created within the National Observatory on Violence against Women.

As regards the statistical data, the number of indicators and statistical variables deriving from them has increased from one report to the next, as has data disaggregation.

The 1st, 2nd, 3rd, 4th, 5th, 6th and 7th Annual Reports have been published in the collection entitled *Against Gender-based Violence*. *Documents* in both physical and digital format. The full reports have also been published in digital format in English, and the respective executive reports have been published in digital format in Spanish, French and English. All of the reports are available for download from the Social Services and Equality section of the Ministry of Health, Social Services and Equality website.

8th Annual Report (2014): structure and contents

The 8th Annual Report by the Observatory, produced by the Subdirectorate-General for Awareness, Prevention and Knowledge of Gender-based Violence and approved on 3 June 2016, is divided into 15 chapters and an annex containing a summary of the data on each autonomous community and province.

Statistical Annual Report on Gender-based Violence

As part of the Observatory's 8th Annual Report, the **Statistical Annual Report** presents the data collected on gender-based violence in 2014. In addition, it compiles these with the data collected in previous years to allow for analysis and interpretation of the entire period and so provide a better and more comprehensive understanding of the reality as regards gender-based violence in Spain. It also provides information on victim and aggressor behaviour, on the number of formal complaints of gender-based violence filed, on the resources made available to victims of gender-based violence, and on changes in social perception of gender-based violence, among other aspects.

The Statistical Annual Report annexed to the Observatory's 8th Report comprises 15 chapters (described briefly below) containing analyses drawn fundamentally from the overall data collected on gender-based violence in Spain in 2014. The last chapter features the conclusions of the working group (created within the National Observatory on Violence against Women) analysing the response of the justice system to gender-based violence.

1. Fatal victims of gender-based violence.

Data from 1 January 2003 to 31 December 2014.

Data source: Government Office for Gender-based Violence (Secretariat of State for Social Services and Equality. Ministry of Health, Social Services and Equality).

Number of fatal victims: In 2014, there were 54 fatal victims, bringing the total number of fatal victims between 2003 and 2014 to 766.

Over that period, 55.4% of the women murdered in Spain died at the hands of their partner or expartner. In 2014, 49.1% of the women murdered in Spain were killed by their partners or expartners.

The figure below shows how the number of women murdered by their partners or ex-partners has varied in that time.

TOTAL: 766 2005 2006

Figure 1. 1: Fatal victims of gender-based violence. Data as at 01 January 2003 to 31 December 2014.

Source: Ministry of Health, Social Services and Equality. Government Office for Gender-based Violence

Formal complaints filed by fatal victims: Of the 54 fatal victims in 2014, only 31.5% (17 women) had filed a formal complaint against their aggressors. Similarly, only 10 fatal victims had requested protective measures, which had been granted to 9 of them.

With regard to judicial action brought by the courts prior to the victims' death, it is noteworthy that of the 566 fatal victims recorded between 1 January 2006 and 31 December 2014 (the only period for which this information is available), formal complaints of abuse were only filed against 150 aggressors (26.5%), meaning that in 416 cases (73.5%) abuse was not reported.

It remains as essential as ever to improve data collection, making it systematic and exhaustive, in order to learn the reasons why prior formal complaints were only filed in 26% of cases; why some women withdrew the formal complaint; why in some cases there was no follow-up to the formal complaint; and why protective measures granted to some women who filed formal complaints and applied for protection were no longer in effect at the time of their death. Equally, it is essential to know how death could have been avoided in those cases in which protective measures were in place.

The persistence of gender-based murder and the variability in its incidence over the period bring into relief the fact that gender-based violence, in its most brutal manifestation, affects the entire country and is a haphazard phenomenon. Equally, it is worth recalling that each murder substantially alters the figures and their distribution.

2. Formal complaints of gender-based violence.

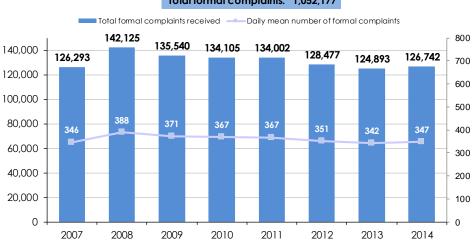

Data from 1 January 2007 to 31 December 2014. Data source: General Council of the Judiciary

In 2014, Spain's courts received a total of 126,742 formal complaints of gender-based violence, equivalent to 10,562 per month and 347 per day. This figure was 1.5% higher than the number of formal complaints of gender-based violence recorded in 2013.

Figure 2. 1: Formal complaints of gender-based violence, annual total and daily mean.

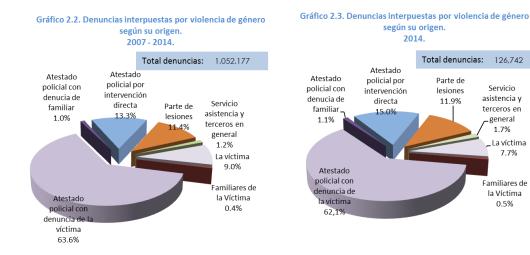

Data as at 1 January 2007 to 31 December 2014.

Total formal complaints: 1,052,177

Source: Compiled in-house from data provided by the General Council of the Judiciary.

Analysis of the 1,052,177 formal complaints filed between 2007 and 2014 by source shows that 763,512 were filed directly with the police or courts by victims of gender-based violence; 140,427 originated from police reports as a result of direct police intervention; 120,036 originated from injury reports; 15,083 were filed by relatives of the victim; and 13,119 were filed by social/support services and third parties in general.

Source: Compiled in-house from data provided by the General Council of the Judiciary.

3. Female victims of gender-based violence receiving police assistance.

Data as at 31 December 2010, 2011, 2013 and 2014.

Data source: Secretariat of State for Security, Ministry of the Interior.

Since 2010, there has been a clear decrease in the number of women assessed by the police at 31 December each year as being active victims of gender-based violence.

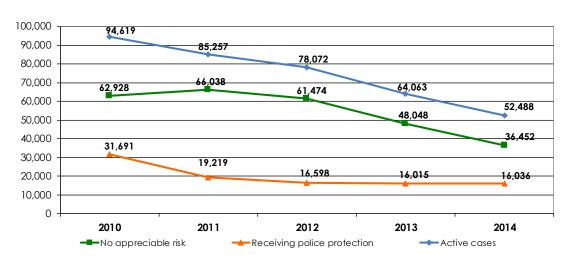

Figure 3. 1. Female victims of gender-based violence receiving police assistance, by assessment of risk level. 2010–2014.

Source: Compiled in-house from data provided by the Ministry of the Interior.

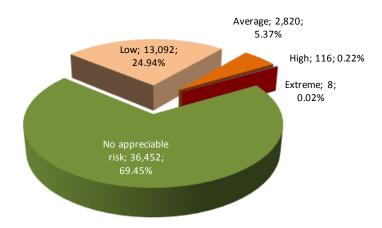

As at 31 December 2014, **52,488** women classified as female victims of gender-based violence were receiving assistance from the security forces. According to the most recent assessment in

each case, **16,036** women were considered to be at risk and were receiving police protection. In **36,452** cases, the most recent police assessment identified no appreciable risk.

For every million females aged 15 and over resident in Spain, **993.4** were victims at risk of suffering further gender-based violence and, consequently, had been provided with police protection.

Figure 3.2. Women assessed by police, by risk level.

31 December 2014

Source: Compiled in-house from data provided by the Ministry of the Interior.

It should be noted that the statistical analysis excludes cases reported in Cataluña and País Vasco as that information does not include the data compiled by their respective regional police forces.

4. Judicial data on gender-based violence

Data as at 31 December 2014.

Data source: Ministry of Justice.

In 2014, the number of specialised courts authorised to deal with cases of violence against women remained unchanged.

Special courts: As at 31 December 2014, Spain had **461** courts authorised to deal with cases of violence against women. Of that number, 106 were specialised courts dealing exclusively with violence against women and 355 were non-exclusive courts authorised to try such cases.

Criminal courts and criminal courtrooms in provincial courts: Likewise, as at 31 December 2014, Spain had 23 specialised criminal courts and **72** courtrooms in provincial courts exclusively hearing cases of violence against women in accordance with the terms of Article 1 of the Comprehensive Protection Law.

Legal aid: In 2014, and within the territory administered by the Ministry of Justice, a total of **4,906** women received counsel under the legal aid system.

Comprehensive Forensic Assessment Units: In 2014, as was the case the previous year, within the territory administered by the Ministry of Justice, a total of **24** psychologist–social worker

teams were in operation staffed by psychologists, social workers and forensic physicians assigned to cases of gender-based violence.

Victim Support Offices: One of Victim Support Offices' primary functions is to assist victims of gender-based violence. Following an established action protocol, they assess and treat those victims at greatest risk. In 2014, a total of 6,578 women were enrolled on the victim assistance programme and 24,583 female victims of gender-based violence were counselled by psychologists.

5. Calls received by the 016 helpline providing information and legal advice on gender-based violence.

Data from 3 September 2007 to 31 December 2014.

Data source: Government Office for Gender-based Violence (Secretariat of State for Social Services and Equality. Ministry of Health, Social Services and Equality).

In 2014, the 016 helpline providing information and legal advice on gender-based violence received a total of **68,651 calls relating to gender-based violence**. This figure was 17.8% higher than the number received in 2013 (**58,274**).

Between 3 September 2007 and 31 December 2014, the helpline received **480,317** calls relating to gender-based violence (see figure below).

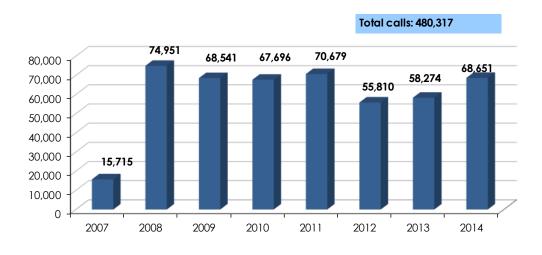

Figure 5.1. Calls received by the 016 helpline, by year. Data as at 3 September 2007 to 31 December 2014.

Source: Ministry of Health, Social Services and Equality. Government Office for Gender-based Violence

Analysis of the calls received by caller type over the period under review reveals that 74% of calls were made by female users. Relatives and friends accounted for 23.4% and professional support staff accounted for 2.6%.

6. ANAR Helpline (Help for children and adolescents at risk).

Data from January to December 2014 Data source: ANAR Foundation.

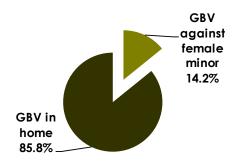

From January 2010 onwards, information is available on calls made to the Child and Adolescent Helpline for minors at risk, and to the Adult and Family Helpline for adults seeking guidance on how best to help minors within their immediate circle. The service provides psychological, social and legal guidance and support

In **2014**, the services received **1,913** calls about gender-based violence.

- 271 calls referred to situations in which a female minor was the direct victim of gender-based violence; and
- **1,642** calls referred to situations of gender-based violence in which a minor formed part of a female victim's family circle.

Figure 6. 1. Percentage breakdown of calls received by the ANAR helpline, by type of violence. 2014

Source: Compiled in-house from ANAR Foundation

The average age of the female minors directly affected by gender-based violence was **15.6**, while the average age of the minors of both sexes experiencing gender-based violence in the home was **8.6**.

As regards the aggressors identified in calls referring to minors of either sex experiencing gender-based violence in the home, 92.02% of aggressors were the minor's father, while 5.85% were the current partner or husband of the minor's mother.

7. Female users of the ATENPRO assistance and protection helpline for victims of gender-based violence.

Data from December 2005 to December 2014.

Data source: Government Office for Gender-based Violence (Secretariat of State for Social Services and Equality. Ministry of Health, Social Services and Equality).

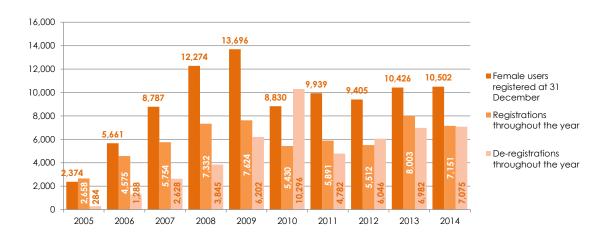

Between going into operation and the end of 2014, the service was used by a total of **59,930** women.

The number of female users registered with the service increased steadily between 2005 and 2009. However, from 2010 onwards, following rationalisation of the service, in which helplines that had not been used for months — along with others that it was not possible to contact — were taken out of operation, the number of registered users fell significantly.

As at 31 December 2014, the number of women using the ATENPRO assistance and protection helpline for victims of gender-based violence stood at **10,502**, up by 0.73% on the figure recorded at the close of 2013 (10,426).

Figure 7.1. Changes in aggregate numbers of registrations with and final female users of the ATENPRO assistance and protection helpline for victims of gender-based violence.

Data as at December 2005 to December 2014

Source: Ministry of Health, Social Services and Equality. Government Office for Gender-based Violence.

8. Subsidised employment contracts for female victims of violence (1 January 2003 to 31 December 2014) and substitution contracts for victims of gender-based violence (1 January 2005 to 31 December 2014).

Data source: State Public Employment Service (Ministry of Employment and Social Security).

Between 1 January 2003 and 31 December 2014, a total of **5,038** subsidised employment contracts for female victims of violence were registered, 725 of them in 2014. Of that latter number, 114 were permanent contracts and 611 were temporary ones.

Between 1 January 2005 and 31 December 2014, a total of **1,697** substitution contracts for employed female victims of gender-based violence were registered, 143 of them in the last year of the period.

9. Female victims of gender-based violence receiving Active Insertion Income (RAI).

Data from 1 January 2006 to 31 December 2014.

Data source: State Public Employment Service (Ministry of Employment and Social Security).

In 2014, a total of **34,550** employed female victims of violence received the RAI, 6% more than in 2013.

Table 9.1. Females aged 16 and over receiving the RAI.

Source: Compiled in-house from data provided by the State Public Employment Service.

As regards financial aid to change address, between January 2005 and December 2014 this was provided to a total of **19,244** females victims of gender-based violence.

10. Recipients of the financial aid established under Article 27 of the Comprehensive Protection Law.

Data as at 1 January 2006 to 31 December 2014.

Data source: Government Office for Gender-based Violence. (Secretariat of State for Social Services and Equality. Ministry of Health, Social Services and Equality).

At the end of 2014, the Government Office for Gender-based Violence held on record that, since 2006, financial aid had been granted to 3,234 female victims of gender-based violence under Article 27 of the Comprehensive Protection Law. Of that number, **606** victims received that aid in 2014.

11. Temporary residence and work permits granted to foreign female victims of gender-based violence and residence permits granted to applicants' children.

Data from 2005 to 31 December 2014.

Data source: Ministry of Public Administration and Finance

Between 2005 and December 2010, temporary residence and work permits were granted to 2,519 foreign female victims of domestic or gender-based violence, while between 2011 and December 2014 temporary residence and work permits were granted to 5,263 female victims of gender-based violence. Of that number, 1,328 were granted in 2014.

12. Gender-based violence offenders serving prison sentences

Data as at 31 December 2014.

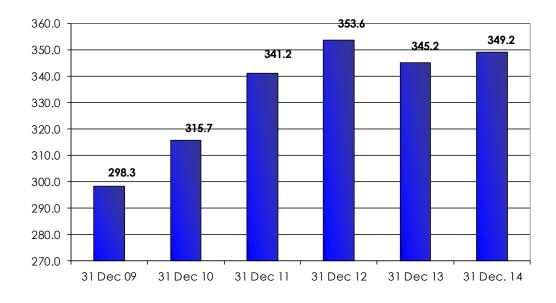

Data source: Secretariat-General for Penitentiary Institutions (Ministry of the Interior).

As at 31 December 2014, a total of **5,489**¹ male gender-based violence offenders were serving prison sentences, a similar number to 2013 (5,485 offenders).

Figure 12.1. Gender-based violence offenders serving prison sentences, by year.

Ratios per million males aged 18 and over.

Data as at 31 December 2009-2014.

Source: Compiled in-house from data provided by the Secretariat-General for Penitentiary Institutions.

¹ Neither prisoner figure includes offenders held in penitentiary centres in Cataluña.

13. Electronic monitoring of restraining orders on gender-based violence offenders.

Data from 24 July 2009 to 31 December 2014.

Data source: Government Office for Gender-based Violence (Secretariat of State for Social Services and Equality. Ministry of Health, Social Services and Equality).

Since electronic monitoring of restraining orders on gender-based violence offenders began on 24 July 2009, and through to 31 December 2014, a total of **2,742** pairs of electronic devices were fitted. Of the 2,742 fitted, 2,026 had been removed by the end of 2014, leaving **716** active pairs of devices in operation as at 31 December 2014.

14. Statistics on domestic and gender-based violence. INE.

2014.

Data source: National Statistics Institute.

The statistics on domestic and gender-based violence offer information about victims and reported aggressors under protection orders and precautionary measures entered in the register for the protection of victims of domestic and gender-based violence in the reference year. The register is maintained by the Ministry of Justice. The information provided does not include the total number of formal complaints filed. Rather, it includes solely those complaints that have been entered in the register as a consequence of the precautionary measures put in place. Similarly, it does not include information about aggressors in relation to whom a final ruling has been issued.

In 2014, a total of 27,087 female victims of gender-based violence were entered in the register in cases in which precautionary measures or protection orders had been put in place, 0.1% fewer than the year before.

By age group, almost half the victims of gender-based violence (49.3%) were aged between 25 and 39, a figure similar to that recorded in 2013. Mean victim age stood at 36.4.

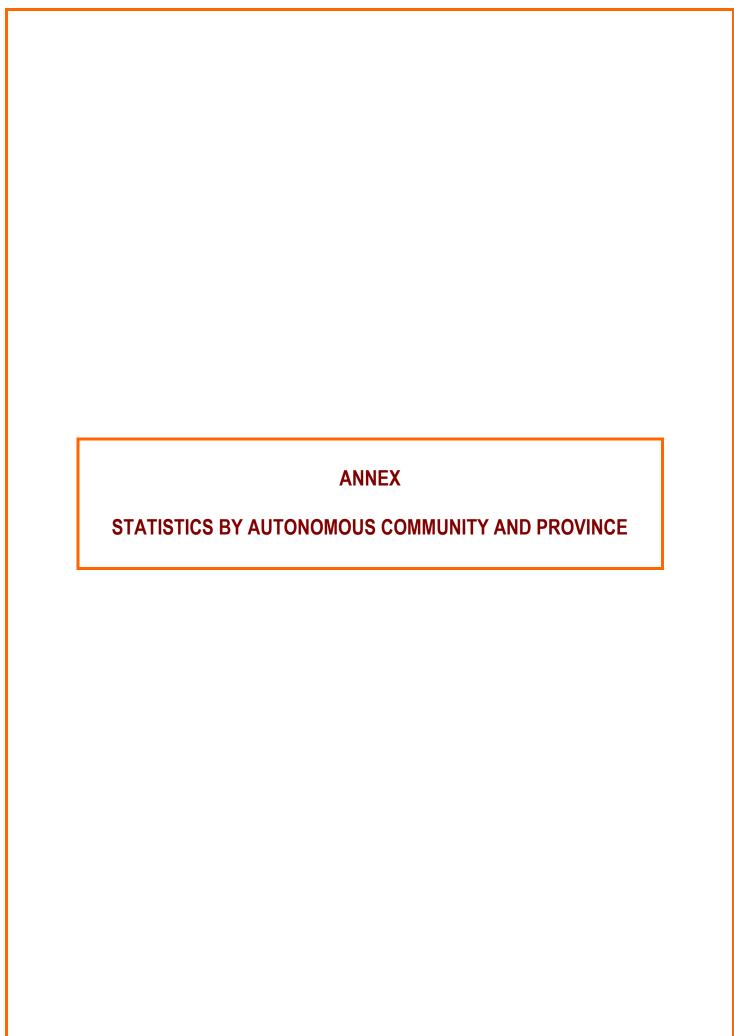

Table 14.1. Victims of gender-based violence under protection order or precautionary measures, and reported aggressors.
