

# 6TH ANNUAL REPORT BY THE NATIONAL OBSERVATORY ONVIOLENCE AGAINST WOMEN

**EXECUTIVE REPORT** 

Madrid, 26 September 2013

## 6TH ANNUAL REPORT BY THE NATIONAL OBSERVATORY ON VIOLENCE AGAINST WOMEN

#### **EXECUTIVE REPORT**

Article 30.2 of Organic Law 1/2004, of 28 December, on measures to provide comprehensive protection against gender-based violence (hereafter referred to as the Comprehensive Protection Law), establishes that the National Observatory on Violence against Women shall produce an annual report on violence against women in accordance with the terms of Article 1.1 of the Comprehensive Protection Law.

This 6th Annual Report was approved by plenary meeting of the Observatory on 17 December 2013.

#### Reports approved and published

The five preceding annual reports published by the National Observatory on Violence against Women, approved in 2007 (1st Report), 2009 (2nd Report), 2010 (3rd Report), 2011 (4th Report), and 2013 (5th Report), draw on information about gender-based violence referring, on the one hand, to the period before implementation of the Comprehensive Protection Law and up to 2007 (1st Report) and, on the other, to statistical data available up to the end of 2008 (2nd Report), 2009 (3rd Report), 2010 (4th Report), 2011 (5th Report) and 2012 (6th Report), respectively.

The system of gender-based-violence indicators and variables was included as an annex to the 1st Report by the Observatory. The 2nd Annual Report by the Observatory also included the findings of research into life experience of women disabled by gender-based violence, which had been commissioned by the Government Office for Gender-based Violence. The 3rd Annual Report included a report by the research group into parental alienation syndrome, the result of the work done by a group established within the Observatory. The 4th Annual Report included a report by a research group created to investigate the extent to which infants exposed to gender-based violence (either as witnesses or victims) are susceptible to becoming direct victims in later life.

As regards the statistical data, the number of indicators and statistical variables deriving from them has increased from one report to the next, as has data disaggregation.

The 1st, 2nd, 3rd, 4th and 5th Annual Reports have been published in the collection entitled "Against Gender-based Violence. Documents" in both physical and digital format. The full reports have also been published in digital format in English, and the respective executive reports have been published in digital format in Spanish, French and English. All of the reports are available for download from the Social Services and Equality section of the Ministry of Health, Social Services and Equality website.

#### 6th Annual Report (2013): structure and contents

The 6th Annual Report by the Observatory, produced by the Subdirectorate-General for Awareness, Prevention and Knowledge of Gender-based Violence and approved on 17 December 2013, is divided into 14 chapters and an annex containing a summary of the data on each autonomous community and province.

### **Statistical Annual Report on Gender-based Violence**

As part of the Observatory's 6th Annual Report, the **Statistical Annual Report** presents the data collected on gender-based violence in 2012. In addition, it compiles these with the data collected in previous years to allow for analysis and interpretation of the entire period and so provide a better and more comprehensive understanding of the reality as regards gender-based violence in Spain. It also provides information on victim and aggressor behaviour, on the number of formal complaints of gender-based violence filed, on the resources made available to victims of gender-based violence, and on changes in social perception of gender-based violence, among other aspects.

The Statistical Annual Report annexed to the Observatory's 6th Report comprises 14 chapters (described briefly below) containing analysis drawn fundamentally from the overall data collected on gender-based violence in Spain in 2012.

1. Fatal victims of gender-based violence. 1 January 2003 to 31 December 2012. Data source: Government Office for Gender-based Violence (Secretariat of State for Social Services and Equality. Ministry of Health, Social Services and Equality).

<u>Number of fatal victims</u>: In 2012, there were 52 fatal victims, bringing the total number of fatal victims between 2003 and 2012 to 658.

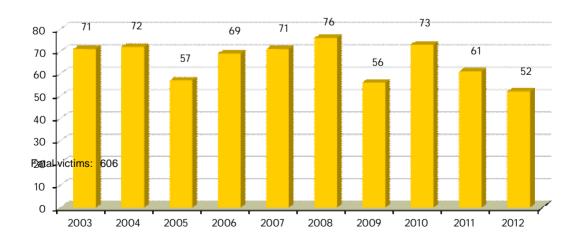

Over that period, 56.2% of the women murdered in Spain died at the hands of their partner or expartner.

The graph below shows how the number of women murdered by their partners or ex-partners has varied in that time. Notably, the lowest number of fatal victims in the last decade was recorded in 2012

Fatal victims of gender-based violence

1 January 2003 to 31 December 2012.

TOTAL: 658

Source: Ministry of Health, Social Services and Equality. Government Office for Gender-based Violence.

<u>Formal complaints filed by fatal victims</u>: Of the 52 fatal victims in 2012, only 19.2% (10 women) had filed a formal complaint against their aggressors. Similarly, only 7 fatal victims had requested protective measures, which had been granted to all 7 of them.

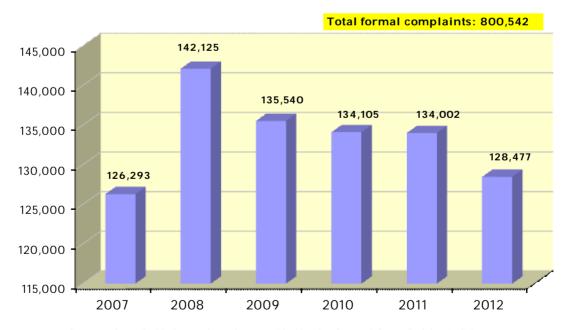

With regard to judicial action brought by the courts prior to the victims' death, it is noteworthy that of the 458 fatal victims recorded between 1 January 2006 and 31 December 2012 (the only period for which this information is available), formal complaints of abuse were only filed against 122 aggressors (26.6%), meaning that in 336 cases (73.4%) abuse was not reported.

It remains as essential as ever to improve data collection, making it systematic and exhaustive, in order to learn the reasons why prior formal complaints were only filed in 27% of cases; why some women withdrew the formal complaint; why in some cases there was no follow-up to the formal complaint; and why protective measures granted to some women who filed formal complaints and applied for protection were no longer in effect at the time of their death. Equally, it is essential to know how death could have been avoided in those cases in which protective measures were in place.

The persistence of gender-based murder and the variability in its incidence over the period bring into relief the fact that gender-based violence, in its most brutal manifestation, affects the entire country and is a haphazard phenomenon. Equally, it is worth recalling that each murder substantially alters the figures and their distribution.

## **2. Formal complaints of gender-based violence.** 1 January 2007 to 31 December 2012. Data source: General Council of the Judiciary.

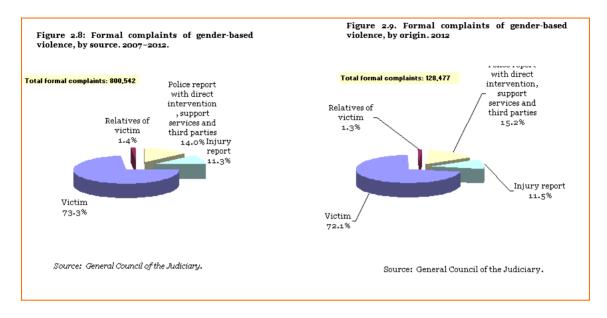

In 2012, Spain's courts received a total of 128,477 formal complaints of gender-based violence, equivalent to 10,706 per month and 351 per day. This figure was 4.12% lower than the number of formal complaints of gender-based violence recorded in 2011.

Source: Compiled in-house from data provided by the General Council of the Judiciary.

Analysis of the **800,542** formal complaints filed between 2007 and 2012 by source shows that 586,949 were filed directly with the police or courts by victims of gender-based violence; 111,810 originated from police reports as a result of direct police intervention, or from reports by support

services and third parties in general; 90,644 originated from injury reports; and 11,139 were filed by relatives of the victim.

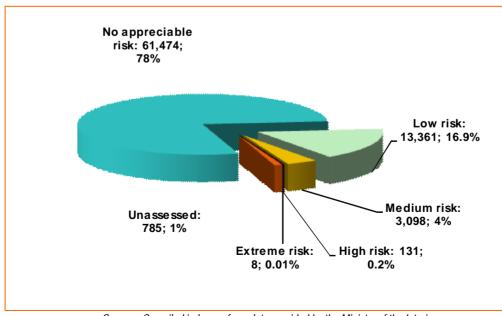

## 3. Female victims of gender-based violence receiving police assistance. 31 December 2012. Data source: Secretariat of State for Security (Ministry of the Interior)

As at 31 December 2012, a total of **99,003** women classified as female victims of gender-based violence were receiving assistance from the security forces. According to the most recent assessment in each case, **16,598 women** were considered to be at risk and were receiving police protection. In **61,474** cases, the most recent police assessment identified no appreciable risk.

For every million females aged 15 and over resident in Spain, **808** were victims at risk of suffering further gender-based violence and, consequently, had been provided with police protection.

Women assessed by police, by risk level. Data as at 31 December 2012

Source: Compiled in-house from data provided by the Ministry of the Interior.

#### 4. Judicial data on gender-based violence. 31 December 2012. Data source: Ministry of Justice.

<u>Special courts</u>: As at 31 December 2012, as was the case 12 months previously, Spain had **461** courts authorised to deal with cases of violence against women. Of that number, 106 were specialised courts dealing exclusively with violence against women and 355 were non-exclusive courts authorised to try such cases.

<u>Criminal courts and criminal courtrooms in provincial courts</u>: Likewise, as at 31 December 2012, Spain had **423** specialised criminal courts and **72** courtrooms in provincial courts exclusively hearing cases of violence against women in accordance with the terms of Article 1 of the Comprehensive Protection Law.

<u>Legal aid</u>: In 2012, and within the territory administered by the Ministry of Justice, a total of **5,092** women received counsel under the legal aid system.

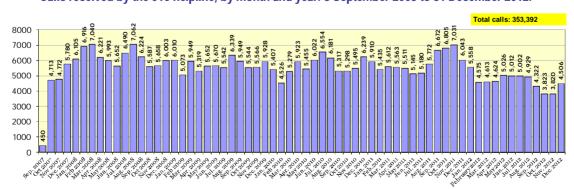

<u>Comprehensive Forensic Assessment Units</u>: In 2012, within the territory administered by the Ministry of Justice, a total of **24** psychologist–social worker teams were in operation staffed by psychologists, social workers and forensic physicians assigned to cases of gender-based violence.

<u>Victim Support Offices:</u> One of Victim Support Offices' primary functions is to assist victims of gender-based violence. Following an established action protocol, they assess and treat those victims at greatest risk. In 2012, a total of 4,894 women were enrolled on the victim assistance programme and 7,768 female victims of gender-based violence were counselled by psychologists.

5. 016 - Helpline providing information and legal advice on gender-based violence. 3 September 2007 to 31 December 2012. Data source: Government Office for Gender-based Violence (Secretariat of State for Social Services and Equality. Ministry of Health, Social Services and Equality).

In 2012, the 016 helpline providing information and legal advice on gender-based violence received a total of **55,810 calls relating to gender-based violence**. This represented a **21%** decrease on the number of calls received in 2011 (**70,679**).

Between 3 September 2007 and 31 December 2012, the helpline received **353,392** calls relating to gender-based violence (see graph below).

Calls received by the 016 helpline, by month and year. 3 September 2003 to 31 December 2012.

Source: Ministry of Health, Social Services and Equality. Government Office for Gender-based Violence.

Analysis of the calls received by caller type over the period under review reveals that 75.2% of calls were made by female users. Relatives and friends accounted for 22.2% and professional support staff accounted for 2.6%.

Calls received by the 016 helpline, by caller type. 3 September 2007 to 31 December 2012.

### **6. Helpline for children and adolescents at risk.** January to December 2012. Data source: ANAR Foundation.

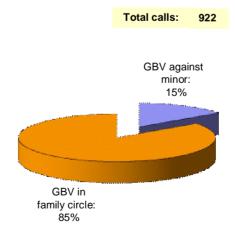

From January 2010 onwards, information is available on calls made to the Child and Adolescent Helpline for minors at risk, and to the Adult and Family Helpline for adults seeking guidance on how best to help minors within their immediate circle. The service provides psychological, social and legal guidance and support

In **2012**, the services received **922** calls about gender-based violence:

- 138 calls referred to situations in which a female minor was the direct victim of genderbased violence; and
- **784** calls referred to situations of gender-based violence in which a minor of either sex formed part of a female victim's family circle.

Percentage breakdown of calls received by the ANAR Foundation, by type of violence. 2012

Breakdown of calls, by type of violence

Source: Compiled in-house from data provided by the Child and Adolescent Helpline.

The average age of the female minors directly affected by gender-based violence was **16**, while the average age of the minors of both sexes experiencing gender-based violence within their family circle was **9.8**.

As regards the aggressors identified in calls referring to minors of either sex experiencing gender-based violence within their family circle, 90.3% of aggressors were the minor's father, while 7.2% were the current partner or husband of the minor's mother.

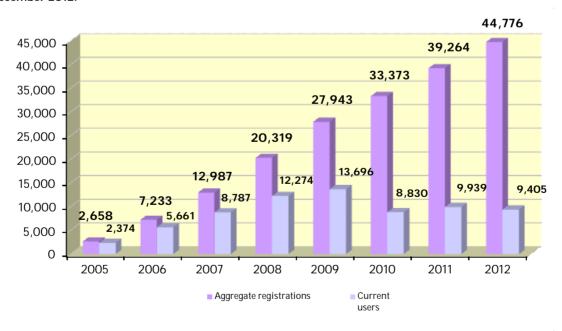

7. Female users of the assistance and protection helpline for victims of gender-based violence (ATENPRO). December 2005 to December 2012. Data source: Institute for the Elderly and Social Services and Government Office for Gender-based Violence (Ministry of Health, Social Services and Equality).

Between going into operation and the end of 2012, the service was used by a total of 44,776 women.

The number of female users registered with the service increased steadily between 2005 and 2009. However, in 2010, following rationalisation of the service, in which helplines that had not been used for months — along with others that it was not possible to contact — were taken out of operation, the number of registered users fell significantly.

As at 31 December 2012, the number of women using the assistance and protection helpline for victims of gender-based violence stood at 9,405, down by 5.4% on the figure recorded at the close of 2011 (9,939).

Changes in aggregate numbers of registrations with and final female users of the ATENPRO assistance and protection helpline for victims of gender-based violence. December 2005 to December 2012.

Source: Ministry of Health, Social Services and Equality. Government Office for Gender-based Violence.

8. Subsidised employment contracts for female victims of violence (1 January 2003 to 31 December 2012) and substitution contracts for victims of gender-based violence (1 January 2005 to 31 December 2012). Data source: State Public Employment Service (Ministry of Employment and Social Security).

Between 1 January 2003 and 31 December 2012, a total of **3,687** subsidised employment contracts for female victims of violence were registered, 459 of them in 2012. Of that latter number, 148 were permanent contracts and 311 were temporary.

Between 1 January 2005 and 31 December 2012, a total of **1,015** substitution contracts for employed female victims of gender-based violence were registered, 378 of them in the last year of the period.

9. Female victims of violence receiving labour-market-integration benefit. 1 January 2006 to 31 December 2012. Data source: State Public Employment Service (Ministry of Employment and Social Security).

In 2012, a total of **30,065** unemployed female victims of violence received labour-market-integration benefit (RAI), 3.4% more than in 2011.

Females aged 16 and over receiving labour-market-integration benefit. Year-on-year variation, aggregate variation and monthly mean, by year. 1 January 2006 to 31 December 2012

	TOTAL	Year-on-year variation (%)	Aggregate variation	Monthly mean	Annual increase in monthly mean
2006	10,924	-	-	5,673	0
2007	13,291	22	22	7,602	34.0%
2008	16,883	27	55	9,445	24.2%
2009	22,010	30	101	13,461	42.5%
2010	25,512	16	134	15,840	17.7%
2011	29,065	14	166	17,820	12.5%
2012	30,065	3	175	18,711	5.0%

Source: Compiled in-house from data provided by the State Public Employment Service.

As regards financial aid to change address, between January 2005 and December 2012 this was provided to a total of **12,628** female victims of gender-based violence.

10. Recipients of the financial aid established under Article 27 of the Comprehensive Protection Law. 1 January 2006 to 31 December 2012. Data source: Government Office for Gender-based Violence (Secretariat of State for Social Services and Equality. Ministry of Health, Social Services and Equality).

At the end of 2012, the Government Office for Gender-based Violence held on record that, between 2006 and 2012, financial aid had been granted to **1,706** female victims of gender-based violence under Article 27 of the Comprehensive Protection Law. Of that number, **282** victims received that aid in 2012.

### 11. Temporary residence and work permits granted to foreign female victims of genderbased violence. Data recorded between 2005 and 31 December 2012. Data source: Ministry of Public Finance and Administration.

Between 2005 and December 2012, temporary residence and work permits were granted to **5,141** foreign female victims of gender-based violence and their children. Of that number, 1,874 were granted in 2012.

	Total	Total		omestic a	and gend	ler-based	dviolence		Total 2011-2012	Gender-based violence

### **12. Gender-based violence offenders serving prison sentences.** 31 December 2012. Data source: Secretariat-General for Penitentiary Institutions (Ministry of the Interior).

As at 31 December 2012, a total of 63,372 male offenders were serving prison sentences in Spain. Of that number, <u>5,647</u> (8.9%) were serving sentences for crimes of gender-based violence, representing a 3.7% increase (an additional 199 prisoners) on 2011 (when the number stood at 5,448).

Total number of gender-based violence offenders serving prison sentences in 2011: 5,448 Total number of gender-based violence offenders serving prison sentences in 2012: 5,647

Gender-based violence offenders serving prison sentences, by year. Ratios per million males aged 18 and over. Data as at 31 December 2009–2012.

Source: Compiled in-house from data provided by the Secretariat-General for Penitentiary Institutions.

<sup>&</sup>lt;sup>1</sup> Neither prisoner figure includes offenders held in penitentiary centres in Cataluña.

13. Electronic monitoring of restraining orders on gender-based violence offenders. 24 July 2009 to 31 December 2012. Data source: Government Office for Gender-based Violence (Secretariat of State for Social Services and Equality. Ministry of Health, Social Services and Equality).

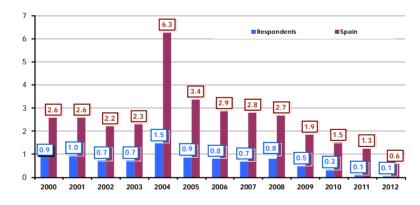

Between the start, on 24 July 2009, of electronic monitoring of restraining orders on gender-based violence offenders and 31 December 2012, a total of **1,772** pairs of electronic devices were fitted. Of the 1,772 fitted, 1,016 had been removed by the end of 2012, leaving **756 active pairs of devices in operation as at 31 December 2012.** 

### **14. Social perception of violence against women.** September 2000 to December 2012. Data source: Centre for Sociological Research.

Every month, a small proportion of the sample interviewed has considered violence against women one of the three biggest problems affecting Spain and/or affecting them personally. The percentages peaked in 2004 and 2005, years that coincided with the Comprehensive Protection Law's drafting, passage through parliament and entry into effect and during which female victims of gender-based violence received extensive media coverage and the issue was treated as a specific phenomenon requiring concrete measures to eradicate it. Since then, the percentages have gradually decreased, reaching the lowest figure recorded in the period under review in 2012.

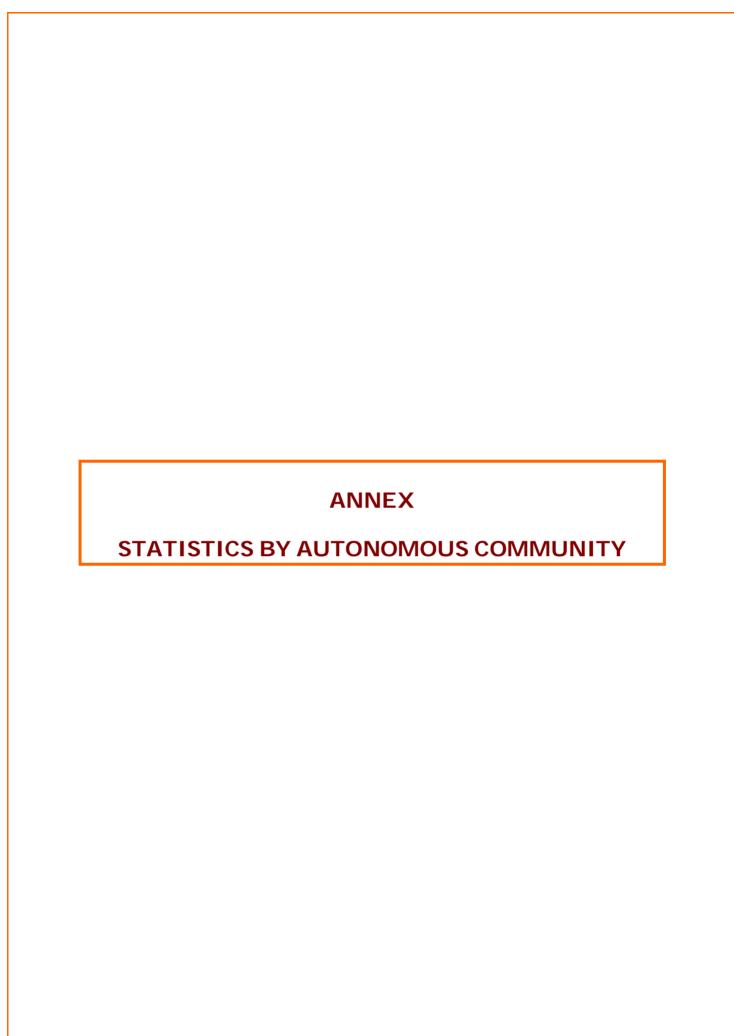

Between September 2000 and December 2012, a total of 335,490 persons were interviewed, producing a monthly mean of 2,151 interviews. Overall, 8,504 (2.5%) of the people polled stated that violence against women was one of the three biggest problems affecting Spain, while 2,292 (0.7%) said that it was one of the three biggest problems affecting them personally.

Violence against women as one of the three biggest problems (% of the total number of persons surveyed each year). September 2000 to December 2012.

Source: Compiled in-house from data collected in opinion polls conducted by the Centre for Sociological Research.

The phenomenon is perceived differently by men and women, with more of the latter considering it a cause for concern. Of the 8,504 persons interviewed over the period under review who stated that violence against women was one of the three biggest problems affecting Spain, 71% were women and 29% were men.
